Risk Management Solution

In partnership with

MANAGE RISK
FROM ALL PERSPECTIVES

To successfully manage or grow a business, the business must develop risk management capabilities equal to the pace of the business. Otherwise, it will be destined for the materialisation of a risk beyond the means of the business.

In today's complex corporate structures, can you be assured that your organisation is working in unison, striving to achieve the organisational objectives and create stakeholder value in an effective, efficient and sustainable manner?

There are a multitude of Risk Management frameworks and regulations such as ISO31000 Standard, King Codes, Basel, Solvency, Sarbanes-Oxley, COSO, and COBIT and many more.

Our multiple award-winning Risk Management Solution can adapt to all of these needs and more, at the same time.

Risk Management, as effective as it gets.

Discover, treat, track and manage uncertainty using the preferred risk management software of more than a million users...

THE RISK TOWER
Prepare your Enterprise for Uncertainty

CURA
MANAGE UNCERTAINTY

FEATURES

- ✓ Fully integrated GRC solution in a single platform

- ✓ Intuitive and user-friendly interface

- ✓ View information visually with flexible charting capabilities/options and self-service dashboards

- ✓ Voting functionality

- ✓ Easy and logical aggregation functionality

- ✓ Bowtie analysis

- ✓ Graphical assessment options — allowing for easy interpretation of data

The Risk Management Solution provides business with the capability to:

- *Identify and measure all major risk exposures*
- *Methodically develop mitigation strategies*
- *Apply analytic capabilities*
- *Produce cogent reports that managers can apply to daily decision-making*

The Risk Management Solution can help you achieve this by breaking down the silos and complexity of corporate structures, and give stakeholders a single source of truth on how effective and efficient the organisation is, with regards to achieving organisational objectives set out by the board.

BENEFITS

Access to trusted data for decision making:

Flexible and configurable to support your unique GRC business requirements. It provides you with easy access to your information with the ability to configure the entire system to meet your needs. Allows you to manage bottom up analysis as well as top down approaches.

Increasing accountability:

Enables managers to improve insight and oversight of the risks and exposures of the business at a strategic level and operational level. Actions, trends and treatment strategies across multiple business disciplines and areas are identified, assessed, treated and monitored.

Protecting your future:

The Risk Management Solution serves as the foundation for your organisation to grow towards full GRC maturity. The CURA GRC platform offers compliance management, surveys for RCSA, ethics and compliance, audit, loss events, quantitative risk modeling and scenario planning as well as other solutions.

Single source of the truth:

Each department can make use of the platform and track its data using both standardized and unique approaches. This allows staff to retain responsibility and independence in their business areas, while preserving the 'bigger picture'.
